Fat Bastards float trip was great success this year but not without struggles.

Several situations may challenge our ability to have the Fat Bustards float trip in the future.

Cutthroat Resort as we all know has its difficulties. This year was more challenging than the last. People making points of driving over to the resort paying cash and reserving spots only to find out they are not able to get the spot reserved. This was several people creating a very frustrating situation. I will be presenting my frustrations to the Owners of the resort in a letter hoping to enlighten them as to our frustrations. Rumor has it part of the resort is up for bid which could change the whole dynamic of the resort.

Other topic which was discussed with many of the people who come to the Fat Bastards float trip is whether to continue. Seems the float trip is more work than fun for many also with added issues with the resort leaving more questions than answers. This will be a topic at our next meeting.
